PRIMARY SCHOOL ENRICHMENT

A guide to schedule enrichment lessons

TERM 2 2025-26
JANUARY-FEBRUARY 2026

What is Enrichment at MTW?

At GEMS Metropole School Al Waha, enrichment lessons refer to activities and programs that go beyond the standard curriculum to challenge students, spark their curiosity, and develop their confidence. These are planned into the school week during lesson time. They are held across key stages, meaning that students have the opportunity to mix peers from other classes who share similar interest.

These are extra opportunities for your child to explore new interest, develop talents, or dive deeper into subjects they love. Another goal of enrichment is to help students stay engaged and motivated through activities that can boost their confidence, foster critical thinking, and even help them discover passions they might not find in regular classes.

By offering enrichment, we aim to nurture well-rounded learners who are excited about their education and better prepares for the future.

During Term 1, Enrichment lessons will take place at the following times:

- KS1 - 10.10 - 11.10
- LKS2 - 1.40 - 2.40
- UKS2 - 1.40 - 2.40

Nurturing
LEADERSHIP

NURTURING CURIOSITY

Little Authors Club

Join us for Writing Club, where children explore fun and creative ways to write stories, poems and exciting sentences. Each week, children take part in playful activities that spark imagination and build confidence. They will learn new vocabulary, practise strong sentences and develop ideas through games, shared writing and simple challenges. Writing Club is a supportive space where children can express themselves, enjoy writing and celebrate their progress as young authors.

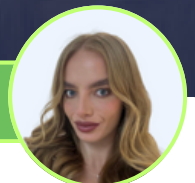

Creative Hands Club

Join us for Arts & Crafts Club, where children can explore their creativity through fun, hands-on activities each week. From painting and colouring to cutting, sticking and building, children will learn new skills while expressing their imagination in exciting ways. This club encourages fine-motor development, creativity and confidence as children make their own wonderful creations to take home. Arts & Crafts Club is a relaxed, enjoyable space where children can try new techniques, develop their artistic talents and have lots of fun with friends.

Game Masters Club

Join us for Game Masters Club, where children explore a range of exciting board games that build thinking skills, teamwork and confidence. Each week, children will learn how to follow rules, take turns, solve problems and strategise in fun, friendly challenges. From classic favourites to new games, this club helps develop communication, patience and resilience as children play together and support one another. Game Masters Club is a welcoming, enjoyable space where children can relax, make friends and develop important social skills while having lots of fun.

Master Builders Academy

Join us at Master Builders Academy, where children use their imagination and problem-solving skills to design, build and create amazing structures each week. Using a range of materials such as blocks, LEGO, and construction sets, children will explore how things fit together, learn basic engineering ideas and work as a team to bring their creations to life. This club encourages creativity, resilience and collaboration as children experiment, test ideas and proudly share their finished designs. Master Builders Academy is a fun, hands-on space where every child can become a confident creator and enjoy the excitement of building something new.

Phonics Fun & Games Club

Welcome to Phonics Fun & Games Club, where children strengthen their reading skills through exciting, play-based phonics activities. Each week, children will take part in sound hunts, blending races, matching games, team challenges and fun competitions that help them recognise sounds, blend words and build early reading confidence. The club supports children at all levels and encourages them to practise key phonics skills in a relaxed, engaging way. Phonics Fun & Games helps develop listening, concentration and vocabulary while keeping learning enjoyable and active. It's the perfect club for children who love to learn through play.

Little Linguists: French Club

Welcome to Little Linguists: French Club, where children will begin their journey into a new language through fun, interactive activities. Each week, children will learn simple French words and phrases through songs, games, stories and role-play. They will explore greetings, numbers, colours, animals and everyday vocabulary in a playful, confidence-building environment. This club helps develop listening skills, memory and early language awareness while encouraging children to enjoy learning about different cultures. Little Linguists is a warm, exciting space where children can practise speaking French, make connections and discover the joy of learning a new language.

Spotlight Stars Drama Club

Welcome to Spotlight Stars Drama Club, where children can express themselves, build confidence and explore their imagination through drama. Each week, children will take part in fun activities such as role-play, storytelling, freeze-frames and simple performances. They will learn how to use their voice, body and facial expressions to bring characters to life while developing teamwork, communication and creativity. Spotlight Stars is a supportive space where children can grow in confidence, make new friends and discover the joy of performing. Whether shy or outgoing, every child is encouraged to shine and enjoy the magic of drama.

Little Sketch Artists Club

Welcome to Little Sketch Artists Club, where children can develop their drawing skills through fun, creative activities each week. Using pencils, crayons and pastels, children will learn how to draw simple shapes, characters, animals and objects while building their fine-motor skills and artistic confidence. They will explore shading, patterns and basic techniques in a relaxed and supportive environment that encourages imagination and self-expression. Little Sketch Artists Club is a wonderful space for children to practise new skills, experiment with ideas and proudly share their artwork. This club helps young artists grow, have fun and enjoy the magic of drawing.

Nature Detectives Club

Join us in Nature Detectives Club, where children explore the world around them through exciting hands-on investigations. Each week, children will learn about plants, animals, weather and habitats through outdoor exploration, simple experiments and creative activities. They will search for clues in nature, observe changes in the environment and develop their curiosity about how the natural world works. Nature Detectives Club helps children build observation skills, teamwork and a love for the outdoors in a calm, supportive setting. Every session encourages children to ask questions, discover new things and enjoy the adventure of being a young nature investigator.

Step-by-Step Drawing Club

Welcome to Step-by-Step Drawing Club, where children learn how to create amazing pictures one simple step at a time. Each week, they will follow clear, easy instructions to draw animals, characters, objects and scenes, building confidence as they see their drawings come to life. Children will practise looking carefully, using shapes to help them draw and adding details to improve their work. This club supports fine-motor skills, concentration and creativity in a calm, friendly setting where every child can feel proud of their progress as a young artist.

Move & Groove Dance Club

Welcome to Move & Groove Dance Club, where children can express themselves, build confidence and have fun through movement. Each week, children will learn simple routines, explore different dance styles and develop rhythm, balance and coordination. Through upbeat music, creative activities and group choreography, children will gain confidence while working together and celebrating each other's progress. Move & Groove is a positive, high-energy space where every child can shine—whether they love to dance or are trying it for the first time. This club encourages joy, teamwork and creativity as children move, groove and enjoy the magic of dance.

Future Football Stars Club

Welcome to Future Football Stars Club, where children develop their skills, teamwork and confidence through fun football activities each week. Children will learn simple drills such as dribbling, passing, shooting and controlling the ball, all while improving coordination and fitness. Through friendly games and mini challenges, they will practise working together, listening to instructions and showing good sportsmanship. This club provides a positive, energetic environment where every child—whether new to football or already passionate—can enjoy learning new skills and being part of a team. Future Football Stars is all about having fun, staying active and growing as young players.

Happy Minds Wellbeing Club

Welcome to Happy Minds Wellbeing Club, a calm and supportive space where children learn simple ways to relax, feel positive and look after their emotional wellbeing. Each week, children will take part in gentle activities such as mindfulness, breathing exercises, colouring, storytelling and gratitude games. They will explore how to recognise their feelings, build confidence and develop strategies to stay calm and focused. Happy Minds helps children develop resilience, kindness and self-awareness in a peaceful, nurturing environment. This club encourages children to feel proud of who they are, make friends and enjoy time dedicated to looking after their minds.

Animal Explorers Club

Welcome to Animal Explorers Club, where children discover the amazing world of animals through fun, hands-on activities each week. Children will learn about different creatures, their habitats, diets and behaviours through stories, games, crafts and simple investigations. They will explore how animals move, communicate and survive, developing curiosity and scientific thinking along the way. This club encourages teamwork, observation skills and a love for nature as children become mini zoologists. Animal Explorers is an exciting, friendly space where children can ask questions, share their knowledge and enjoy learning about the incredible animals that live around our world.

Calm Creations: Mindfulness Drawing Club

Welcome to Calm Creations: Mindfulness Drawing Club, where children can relax, unwind and express themselves through gentle, mindful art activities. Each week, children will explore simple drawing techniques such as pattern work, doodling, mandalas and slow sketching to help them feel calm and focused. They will learn how art can support their wellbeing by encouraging concentration, steady breathing and positive thinking. This club offers a peaceful space for children to enjoy quiet creativity, build confidence and take time for themselves. Calm Creations helps children feel grounded, happy and proud of the beautiful artwork they create.

Book Explorers Library Club

Welcome to Book Explorers Library Club, a cosy and calm space where children can enjoy stories, discover new books and develop a love of reading. Each week, children will listen to engaging read-alouds, explore different genres and take part in fun activities such as book hunts, storytelling games and quiet reading time. They will build confidence, vocabulary and imagination as they learn how to choose books they enjoy and talk about their favourite characters and adventures. Book Explorers encourages curiosity, a love of learning and a lifelong passion for reading in a supportive, friendly environment.

Little Yogis Club

Welcome to Little Yogis Club, a peaceful and relaxing space where children can learn simple yoga poses, breathing techniques and mindfulness activities. Each week, children will practise gentle stretches, balance exercises and calming routines that help improve focus, flexibility and body awareness. Through storytelling, movement and guided relaxation, children will learn how to stay calm, manage their emotions and look after their wellbeing. Little Yogis Club encourages confidence, positivity and a sense of calm, giving children time to unwind and enjoy mindful movement in a supportive, nurturing environment.

Forest Explorers Club

Welcome to Forest Explorers Club, where children discover the wonders of nature through outdoor adventures and hands-on exploration. Each week, children will investigate plants, insects, trees and natural materials while learning how to care for the environment. They will enjoy simple challenges such as scavenger hunts, den building, nature crafts and sensory activities that build curiosity and confidence. Forest Explorers encourages teamwork, resilience and a love for the outdoors as children observe the world around them and develop important problem-solving skills. This club offers a calm, exciting space where every child can connect with nature and enjoy exploring the great outdoors.

Dodgeball Dash Club

Welcome to Dodgeball Dash Club, where children can stay active, have fun and build teamwork skills through fast-paced, energetic games. Each week, children will learn the basics of dodgeball, including throwing, catching, movement and spatial awareness, all in a safe and supportive environment. They will take part in friendly matches and mini challenges that encourage cooperation, good sportsmanship and quick thinking. Dodgeball Dash Club helps children develop confidence, fitness and coordination while enjoying exciting, high-energy play with their friends. It's the perfect club for children who love to move, compete and have lots of fun.

Little Voices Choir

Welcome to Little Voices Choir, where children can discover the joy of singing in a fun and supportive environment. Each week, children will learn simple songs, practise rhythm and pitch, and explore how to use their voices with confidence. Through musical games, group singing and performance opportunities, children will build teamwork, listening skills and a love of music. Little Voices Choir helps children express themselves, grow in confidence and celebrate their talents while enjoying the magic of singing together. Whether they are new to singing or already love music, every child is encouraged to shine.

Mini Milers Running Club

Welcome to Mini Milers Running Club, where children can stay active, build stamina and enjoy the excitement of running in a fun, supportive environment. Each week, children will take part in warm-ups, short runs, relay games and simple fitness challenges designed for all abilities. They will learn about pacing, perseverance and healthy habits while developing coordination and confidence. Mini Milers encourages teamwork and positivity as children cheer each other on and celebrate their progress. This club is perfect for children who love to move, explore the outdoors and challenge themselves to become stronger, happier runners.

Welcome to Little Yogis Club, a peaceful and relaxing space where children can learn simple yoga poses, breathing techniques and mindfulness activities. Each week, children will practise gentle stretches, balance exercises and calming routines that help improve focus, flexibility and body awareness. Through storytelling, movement and guided relaxation, children will learn how to use their voices, manage their emotions and look after their wellbeing. Little Yogis Club encourages confidence, positivity and a sense of calm, giving children time to unwind and enjoy mindful movement in a supportive, nurturing environment.

NURTURING CONFIDENCE

The Calm Corner

Welcome to Wellbeing & Mindfulness Club, a calm and supportive space where children learn practical strategies to look after their mental and emotional health. Each week, pupils will explore mindfulness techniques, breathing exercises, guided reflections and simple relaxation activities designed to help them stay focused and manage everyday stress. They will also take part in creative wellbeing tasks such as journaling, mindful drawing and gratitude challenges. The club encourages self-awareness, resilience and positive thinking, helping children understand their emotions and build healthy habits that support both learning and personal growth. It's a peaceful place to reset, reflect and recharge.

Brain Busters Maths Club

Welcome to Brain Busters Maths Club, where children tackle exciting challenges that stretch their thinking and build confidence in problem solving. Each week, pupils will explore puzzles, logic problems, number investigations and real-life maths scenarios that encourage reasoning and creativity. They will work independently and in teams to find strategies, test ideas and explain their thinking. The club helps develop resilience, perseverance and a positive attitude towards maths, showing children that there is always more than one way to solve a problem. Brain Busters is perfect for curious learners who enjoy thinking deeply, exploring patterns and having fun with numbers.

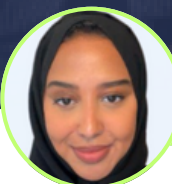

Rhythm Revolution Dance Club

Welcome to Rhythm Revolution Dance Club, where children can express themselves, build confidence and learn exciting dance routines each week. Pupils will explore different styles such as hip-hop, jazz, freestyle and pop, while developing coordination, rhythm and musicality. Through warm-ups, technique practice and group choreography, children will improve their fitness, teamwork and stage presence. The club provides a positive, energetic environment where every child can shine—whether they are new to dance or already love performing. Rhythm Revolution encourages creativity, resilience and enthusiasm as pupils work towards routines they can be proud of and enjoy moving to the music.

Reading Rangers Club

Welcome to Reading Rangers Club, where children dive into exciting books, explore new genres and grow their confidence as independent readers. Each week, pupils will discover engaging stories, take part in book chats, reading challenges and comprehension games that deepen their understanding. They will learn how to make predictions, infer meaning, explore vocabulary and discuss characters and themes in greater depth. The club encourages curiosity, imagination and a genuine love of reading, helping children develop strong habits that support their learning across the curriculum. Reading Rangers is the perfect space for children to enjoy stories, share ideas and become adventurous readers.

Puzzle Masters Club

Welcome to Puzzle Masters Club, where children strengthen their thinking skills through exciting challenges, logic games and brain-teasing activities. Each week, pupils will work on a range of puzzles including codes, crosswords, mazes, riddles, strategy games and number challenges that develop reasoning and perseverance. They will learn how to spot patterns, think critically, plan ahead and work both independently and in teams to solve problems. The club encourages resilience, creativity and a positive attitude towards tackling tricky tasks. Puzzle Masters is the perfect place for curious children who love stretching their brains and having fun at the same time.

Sketch Squad Studio

Welcome to Sketch Squad Studio, where children can develop their drawing skills and explore new artistic techniques each week. Pupils will learn how to use shapes, shading, texture and proportion to create detailed sketches of objects, characters, animals and scenes. They will experiment with different materials, practise observation skills and learn how to refine their work through guided steps and creative challenges. The club encourages patience, creativity and confidence as children build their artistic style and share their ideas with others. Sketch Squad Studio is the perfect space for young artists who enjoy drawing and want to take their skills further.

Times Table Titans Club

Welcome to Times Table Titans Club, where children build confidence and speed with their multiplication facts through fun games, challenges and activities. Each week, pupils will practise key times tables using interactive tasks such as flashcard races, memory games, team competitions, puzzles and digital challenges. They will learn strategies to recall facts quickly, understand patterns and apply multiplication to real-life problems. The club helps develop accuracy, fluency and a positive mindset towards maths, making learning enjoyable and rewarding. Times Table Titans is perfect for children who want to strengthen their skills, boost their confidence and become true multiplication masters.

CodeCraft Creators Club

Welcome to CodeCraft Creators Club, where children learn the foundations of coding through fun, interactive activities. Each week, pupils will explore block-based programming, solve challenges and design simple animations, games and digital projects. They will develop key skills such as sequencing, debugging, logical thinking and problem-solving while building confidence with technology. The club encourages creativity, resilience and teamwork as children test ideas, fix errors and bring their digital creations to life. CodeCraft Creators is the perfect space for curious learners who enjoy experimenting, inventing and discovering how coding shapes the world around them.

Rocket Runners Club

Welcome to Rocket Runners Club, where children can build stamina, speed and confidence through fun, structured running activities. Each week, pupils will take part in warm-ups, technique drills, relay races, interval runs and outdoor challenges designed to suit all ability levels. They will learn about pacing, goal-setting and maintaining a positive mindset while developing resilience, coordination and overall fitness. The club encourages teamwork and determination as children support one another and celebrate personal progress. Rocket Runners is the perfect space for pupils who want to stay active, challenge themselves and enjoy the freedom and excitement of running.

Creative Makers Studio

Welcome to Creative Makers Studio, where children explore a wide range of art and craft techniques to express their imagination. Each week, pupils will experiment with drawing, painting, collage, sculpture and mixed-media projects that encourage creativity and confidence. They will learn how to plan ideas, use different materials effectively and refine their work with increasing independence. The club promotes problem-solving, resilience and artistic thinking as children design, create and proudly share their finished pieces. Creative Makers Studio is the perfect place for young artists who enjoy hands-on projects, imaginative challenges and the excitement of turning ideas into artwork.

STEM Innovators Lab

Welcome to STEM Innovators Lab, where children explore science, technology, engineering and maths through hands-on challenges and exciting investigations. Each week, pupils will design, build, test and improve creations such as bridges, circuits, rockets, structures and simple machines. They will work collaboratively to solve problems, make predictions, analyse results and think like real engineers and scientists. The club encourages curiosity, resilience and creativity as children learn through experimentation and discovery. STEM Innovators Lab is the perfect space for pupils who love exploring how things work, asking questions and developing the skills needed to become future innovators and problem-solvers.

Comic Creators Studio

Welcome to Comic Creators Studio, where children learn how to design and bring their own comic books to life. Each week, pupils will explore character design, storyboarding, speech bubbles, action panels and visual storytelling techniques. They will practise drawing expressions, planning exciting plots and using layout to create dramatic, eye-catching pages. The club encourages imagination, creativity and resilience as children draft, edit and refine their work just like real comic artists. Comic Creators Studio is the perfect space for pupils who love art, writing and superheroes—and want to create their very own illustrated adventures from start to finish.

Flow & Focus Yoga Club

Welcome to Flow & Focus Yoga Club, where children explore mindful movement, build strength and learn techniques to support their wellbeing. Each week, pupils will practise a range of yoga poses, breathing exercises and gentle stretches designed to improve balance, flexibility and body awareness. They will also learn simple mindfulness strategies to help them stay calm, focused and positive in everyday situations. Through guided routines, partner challenges and relaxation activities, the club encourages confidence, resilience and self-control. Flow & Focus Yoga Club is a peaceful, supportive space where children can unwind, recharge and enjoy taking care of both mind and body.

Game Creators: Sports Design Club

Welcome to Game Creators: Sports Design Club, where imagination meets movement! This club gives children the chance to design their own sports, games and challenges while developing teamwork, creativity and problem-solving skills. Each week, pupils will explore how different sports work, test out equipment, and experiment with rules, scoring systems and layouts. They will sketch ideas, collaborate in groups and bring their creations to life through mini play-tests. The club encourages leadership, strategic thinking and resilience as children learn what makes a great game. It's the perfect mix of creativity, sport and innovation for active, imaginative learners.

Voices Unleashed Choir

Welcome to Voices Unleashed Choir, where children can develop their singing skills, build confidence and enjoy the excitement of performing together. Each week, pupils will learn a range of songs, explore harmony and rhythm, and practise vocal techniques that help strengthen and control their voices. Through warm-ups, musical games and group rehearsals, they will improve teamwork, listening skills and stage presence. The club provides a positive, supportive environment where every child can discover their musical potential. Voices Unleashed Choir encourages creativity, expression and pride as children work towards performances and celebrate the joy of singing as a team.

Future Strikers Cricket Club

Welcome to Future Strikers Cricket Club, where children can develop their cricket skills, teamwork and game awareness in a fun, energetic environment. Each week, pupils will practise key techniques such as batting, bowling, catching and fielding through drills, challenges and small-sided games. They will learn how to work as a team, communicate effectively and apply simple strategies during play. The club focuses on building confidence, coordination and resilience while nurturing a love of the sport. Future Strikers is the perfect place for children to improve their skills, stay active and enjoy the excitement of cricket with friends.

NURTURING CONFIDENCE

Cartoon Creators Academy

Welcome to Cartoon Creators Academy, where students develop advanced drawing skills and learn the art of creating unique cartoon characters and scenes. Each week, pupils will explore techniques such as dynamic poses, facial expressions, proportions, shading, exaggeration and visual storytelling. They will experiment with different styles—comic, chibi, anime, classic cartoons—and practise turning ideas into polished artwork. Through guided tutorials, sketch challenges and creative projects, students will refine their skills, build confidence and develop their own artistic style. Cartoon Creators Academy is the perfect space for aspiring artists who want to level up their drawing and bring their imagination to life.

Code Masters Lab

Welcome to Code Masters Lab, where students take their coding skills to the next level through creative projects and real-world challenges. Each week, pupils will explore advanced block-based programming and begin stepping into text-based coding, creating games, animations, simulations and interactive designs. They will learn key concepts such as variables, loops, conditionals, algorithms and debugging while developing logical thinking and problem-solving skills. Through collaborative tasks and independent challenges, students will experiment, innovate and bring their digital ideas to life. Code Masters Lab is perfect for aspiring young programmers who want to push their skills further and understand how technology shapes the world.

Library Legends Reading Club

Welcome to Library Legends Reading Club, a calm and inspiring space where students can enjoy great books and develop deeper reading skills. Each week, pupils will explore new genres, discover engaging authors and dive into rich stories through guided reading time, discussion prompts and creative responses. They will build vocabulary, inference skills and reading stamina while learning how to choose books that challenge and excite them. The club encourages curiosity, thoughtful discussion and a genuine love of reading as students share recommendations and explore the library's best titles. Library Legends is perfect for readers who enjoy getting lost in a good book.

History Detectives Society

Welcome to History Detectives Society, where students investigate major historical events and uncover the fascinating stories behind them. Each week, pupils will explore turning points in world history through evidence analysis, artefact studies, maps, timelines and source investigations. They will examine causes, consequences, key figures and real-life mysteries while developing critical thinking and enquiry skills. Through debates, mini-projects, re-creations and collaborative challenges, students will strengthen their understanding of how the past has shaped the world today. History Detectives Society is perfect for curious learners who enjoy questioning, analysing and discovering the extraordinary events that changed history.

Chapter Champions Book Club

Welcome to Chapter Champions Book Club, where students dive deeply into high-quality texts and explore the themes, characters and ideas that make them powerful. Each week, pupils will read selected chapters, take part in thought-provoking discussions and complete creative tasks that develop inference, interpretation and critical thinking. They will analyse language choices, unpack key messages, compare characters and explore how authors build tension and emotion. Through debates, mini projects and shared reading experiences, the club encourages confidence, curiosity and a love of literature. Chapter Champions is perfect for students who enjoy reading, discussing big ideas and discovering the meaning behind great stories.

German Language Explorers

Welcome to German Language Explorers, where students begin building real conversational German through fun, structured activities. Each week, pupils will learn useful vocabulary, everyday phrases and pronunciation skills through games, dialogues, role-play and cultural challenges. They will explore topics such as greetings, school life, hobbies, food, travel and German traditions while developing listening, speaking and reading confidence. The club encourages teamwork, curiosity and independence as students practise short conversations, decode simple texts and discover what makes German such an exciting language to learn. German Language Explorers is perfect for pupils keen to try a new language and broaden their cultural understanding.

Maths Masterminds Club

Welcome to Maths Masterminds Club, where students tackle high-level problem-solving challenges designed to stretch their reasoning and deepen their understanding. Each week, pupils will explore rich tasks, multi-step problems, logic puzzles, pattern investigations and real-life scenarios that require strategic thinking. They will learn how to choose efficient methods, justify their reasoning and communicate solutions clearly. Through collaborative challenges and independent problem-solving time, students will build resilience, accuracy and mathematical creativity. Maths Masterminds is ideal for learners who enjoy thinking deeply, exploring multiple strategies and developing the confidence needed to approach complex problems with a growth mindset.

STEM Innovators League

Welcome to STEM Innovators League, where students take on advanced science, technology, engineering and maths challenges designed to spark creativity and critical thinking. Each week, pupils will design, test and improve solutions to real-world problems using hands-on experiments, engineering builds, coding tasks and scientific investigations. They will explore forces, energy, circuits, robotics, structures, aerodynamics, chemical reactions and more—applying their knowledge in exciting, practical ways. The club promotes teamwork, resilience and innovation as students plan, prototype and evaluate their ideas. STEM Innovators League is perfect for curious young engineers and scientists ready to push boundaries and think like tomorrow's inventors.

Elite Football Academy

Welcome to Elite Football Academy, where students develop advanced football skills, tactical understanding and confidence through high-quality training sessions. Each week, pupils will focus on key techniques such as dribbling under pressure, accurate passing, controlled first touch, powerful shooting and defensive strategies. They will take part in drills, mini-games and match-play scenarios that build speed, strength, teamwork and decision-making. The club encourages resilience, communication and leadership as players refine their performance and learn to work effectively as a team. Elite Football Academy is perfect for keen footballers who want to push their skills, compete positively and elevate their game.

Challenge Champions Fitness Club

Welcome to Challenge Champions Fitness Club, where students push their limits, build confidence and stay active through fun and competitive fitness challenges. Each week, pupils will take on new tasks such as circuit stations, agility courses, resistance challenges, endurance tests and team-based strength activities. They will set personal goals, track progress and learn how to improve stamina, flexibility and overall physical health. The club promotes resilience, determination and a positive mindset as students support one another and celebrate their achievements. Challenge Champions is perfect for pupils who enjoy high-energy activities, friendly competition and pushing themselves to become fitter and stronger.

Speak Up Academy

Welcome to Speak Up Academy, where students build confidence, communication skills and leadership through engaging public speaking activities. Each week, pupils will practise structuring speeches, using persuasive language, projecting their voices and speaking with clarity and expression. They will take part in debates, storytelling tasks, impromptu challenges and mini-presentations that help develop quick thinking and confidence under pressure. The club encourages teamwork, resilience and self-belief as students learn to share ideas effectively and support one another. Speak Up Academy is perfect for pupils who want to improve their speaking skills, boost confidence and become powerful, articulate communicators.

ZenFlow Yoga Collective

Welcome to ZenFlow Yoga Collective, where students build strength, balance and focus through mindful movement and guided practice. Each week, pupils will explore a range of yoga poses, breathing techniques and relaxation strategies designed to improve flexibility, posture and emotional wellbeing. They will develop body awareness, learn how to calm their mind and build resilience through structured routines and mindfulness reflections. The club provides a peaceful, supportive environment where students can unwind from the school day, reset their mindset and develop healthy habits that support both physical and mental health. ZenFlow Yoga Collective is perfect for learners seeking calm, strength and balance.

Voices of MTW Choir

Welcome to Voices of MTW Choir, where students develop vocal technique, musical expression and ensemble performance skills in a supportive and inspiring environment. Each week, singers will learn a range of songs—from modern hits to musical theatre and harmonised arrangements—while exploring breath control, tone, diction and harmony. They will take part in warm-ups, group rehearsals and performance workshops that build confidence, teamwork and stage presence. The club encourages dedication, creativity and pride as pupils prepare for opportunities to showcase their talent. Voices of MTW Choir is perfect for students who love to sing, perform and grow as young musicians.

Champions Cricket Academy

Welcome to STEM Innovators League, where students take on advanced science, technology, engineering and maths challenges designed to spark creativity and critical thinking. Each week, pupils will design, test and improve solutions to real-world problems using hands-on experiments, engineering builds, coding tasks and scientific investigations. They will explore forces, energy, circuits, robotics, structures, aerodynamics, chemical reactions and more—applying their knowledge in exciting, practical ways. The club promotes teamwork, resilience and innovation as students plan, prototype and evaluate their ideas. STEM Innovators League is perfect for curious young engineers and scientists ready to push boundaries and think like tomorrow's inventors.

Young Chefs Kitchen Lab

Welcome to Young Chefs Kitchen Lab, where students learn practical cooking skills and build confidence in the kitchen through fun, hands-on recipes. Each week, pupils will explore essential techniques such as chopping safely, measuring accurately, mixing, seasoning and presenting dishes beautifully. They will create a variety of sweet and savoury recipes while learning about nutrition, food hygiene and kitchen organisation. The club encourages creativity, independence and teamwork as students experiment with flavours and develop their own culinary ideas. Young Chefs Kitchen Lab is perfect for pupils who love cooking, want to gain real-life skills and enjoy creating delicious food to share.
